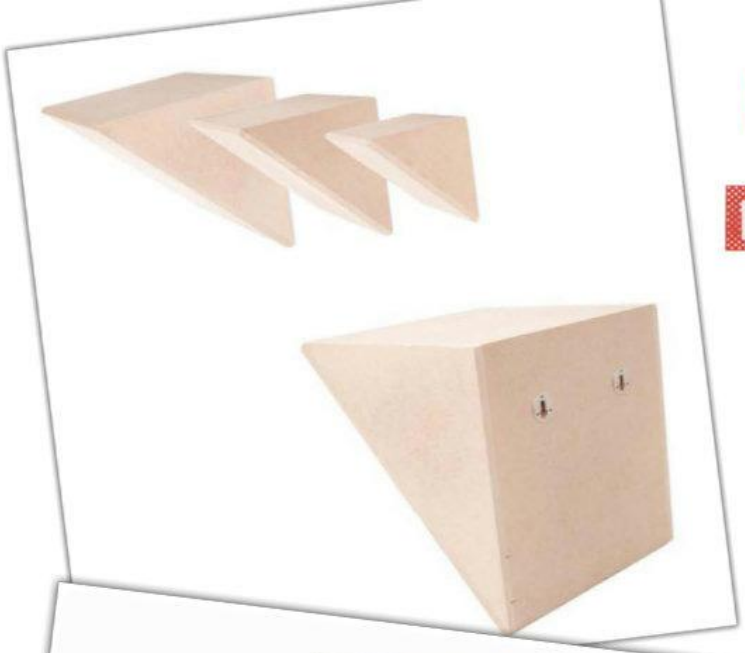
Wood Painting Panels

All wood painting panels are carefully selected, 5 ply boards, all wood painting panels is finely sanded and non-porous, 5mm thick, mounted on 3cm thick, knot-free wooden frames, making for a smooth, flat and rigid painting surface.
The painting surface on panels requiring only simple primers.
The surface of the frame on these all wood painting panels can be used as a decorative frame.

Carving Panel Holder.

An innovation in wood panel carving; this tool is the first of its kind! For the student or experienced artist; this Carving panel Holder provides a safer way to carve as it secures the block from slipping. It will accommodate most block sizes regardless of brand.



Wall Triangle Bracket & Cube

Wall Triangle Bracket is a stylish wall bracket made of sturdy MDF wood. wall bracket is ideal for the presentation of sculptures and other objects in any room height in the museum, gallery, exhibition, home and studio area. Thanks to its modern, simple design, the exhibits come to Wall Triangle Bracket to its best advantage. Wall Triangle Bracket is supplied untreated and may be part of the artwork by individual colors themselves. Wall Triangle Bracket can be painted in the color of the wall, so that it blends unobtrusively with the background and the exhibit comes to the fore.

Plywood Panel & Lino Carving Mat & Wooden Hammer

Easy to cut and with a high density, and provides the perfect entryway into the world of woodcuts.
Due to its ease of use and the ability to obtain sharp edges and precise cuts, plywood is very popular both as an art education tool and among individual artists.
plywood can also be used as a rigid painting panel, although in this instance it should be primed before usage.

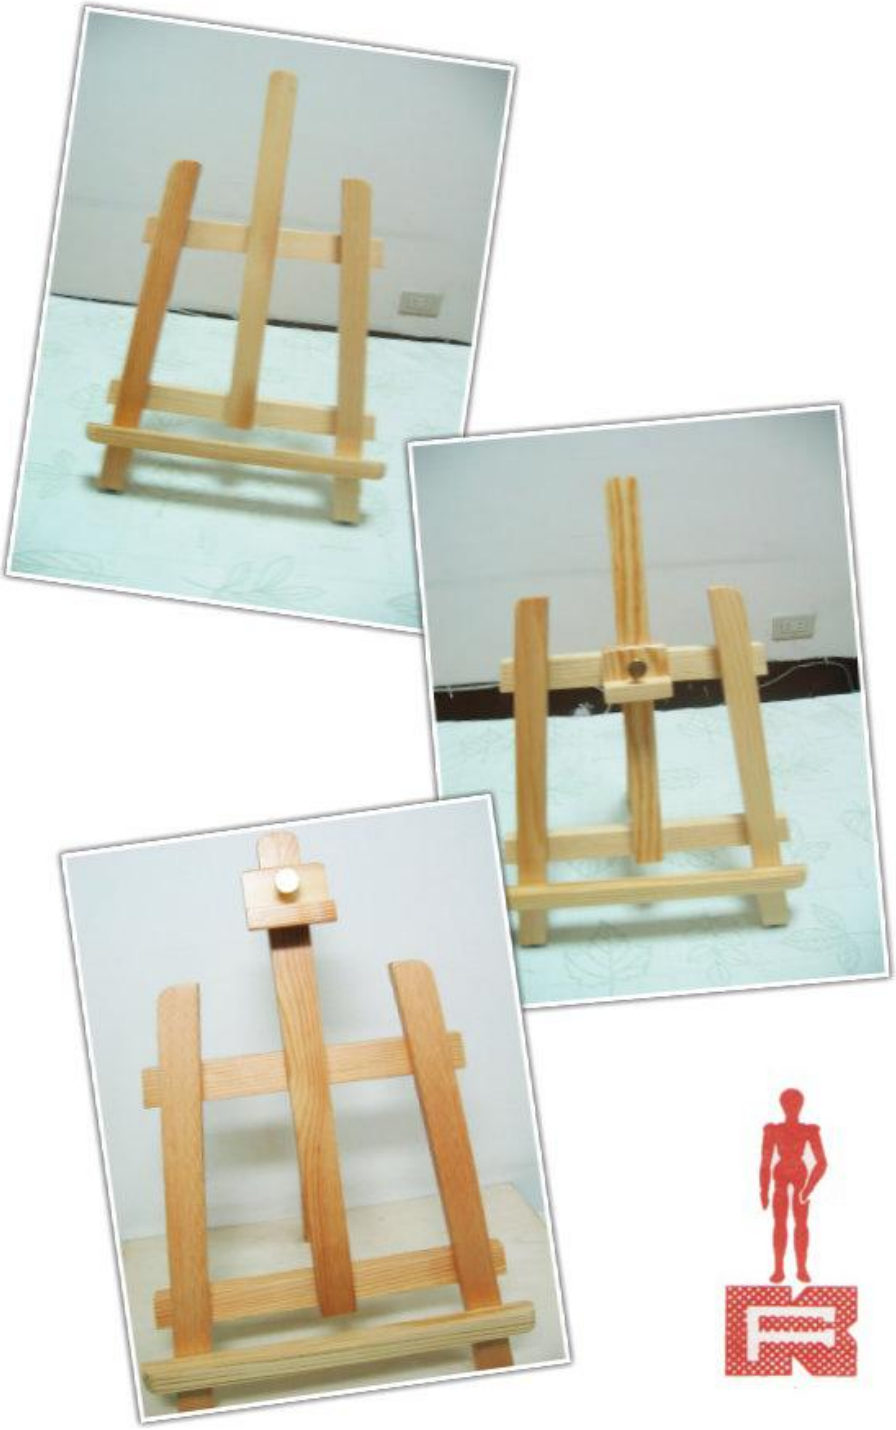


Table Top Easel

Table Top Easel, made of pine, with adjustable height and tilt. This table top easel is 26cm wide and can hold paintings up to 30cm.

Porcelain Palettes

Porcelain palettes are suitable for watercolour, gouache and especially acrylic paints. Because of the impervious nature of glazed porcelain waterbased fluids, even determined ones like acrylics, can not adhere to the surface of these dishes like they do to most plastic ones. Once paint is dry, simply submerse in hot water and acrylic paint will easily lift off. All are made of glazed porcelain

Stone Carving Tools & RASPS

Sculptor chisels with excellent price-performance ratio! High quality carbon steel, meticulously crafted, ideal for machining soft stone such as soapstone. Contents: 2 flat chisels, 3 point chisels, 3 Tooth Chisels ,1 hammer 400 g, in a practical roll-up case made of strong material. Length of the tools approx 21cm. This steel rasps is made for fine detail work on wood, stone, and plaster.Each tool measures approximately 6" (15 cm) in length.

Wooden Toll Painting

Wooden toll painting are from top-quality 1/8" basswood, which is sanded to render a smooth, firm painting surface. Their sanded edges also allow your painting to flow beyond the face of your work.
wooden painting accept virtually any medium and are ideal for showcasing detailed or fine brushwork. Although priming is not necessary for some applications, the panels can be primed with gesso.
Available in rectangular or square formats in a variety of sizes,.
